Law, Rights and Ideology in Russia: Landmarks in the Destiny of a Great Power.

Law, Rights and Ideology in Russia: Landmarks in the destiny of a great power brings into sharp focus several key episodes in Russia’s vividly ideological engagement with law and rights. Drawing on 30 years of experience of consultancy and teaching in many regions of Russia and on library research in Russian-language texts, Bill Bowring provides unique insights into people, events and ideas. The book starts with the surprising role of the Scottish Enlightenment in the origins of law as an academic discipline in Russia in the eighteenth century. Finally, the secrets of the ideology of “sovereignty” in the Putin era and their impact on law and rights are revealed. This book provides a rich examination of Russia’s particular attitude to political liberalism, the rule of law, and rights. In words often cited in court. The Great Reforms of Tsar Aleksandr II, abolishing serfdom in 1861 and introducing jury trial in 1864, are then examined and debated as genuine reforms or the response to a revolutionary situation. A new interpretation of the life and work of the Soviet legal theorist Yevgeniy Pashukanis leads to an analysis of the conflicted attitude of the USSR to international law and human rights, especially the right of peoples to self-determination. Introduction 1. Theorising Russia’s ideological history 2. The Scottish Enlightenment in the Russian Empire 3. The 1850s and 1860s in Russia: revolutionary situation or great reforms? Landmarks in the Destiny of a Great Power. Author & abstract. Download.
