It also complements When a child dies â€“ a guide for families and carers. 11. This guidance also complements guidance on independent investigations. 4. Bereaved families and carers should be informed of their right to raise concerns about the quality of care provided to Start by marking â€œBereavement, Loss and Learning Disabilities: A Guide for Professionals and Carersâ€ as Want to Read: Want to Read saving… Want to Read. The author explains how to engage the person with a learning disability in talking therapy by creating an open dialogue. Common signs of stress, factors to consider in assessing risk and advice on how best to approach difficult subjects are presented. The role of supervision in counselling and issues surrounding terminal illness are also discussed, and practical solutions offered. Purpose Bereavement and loss are key factors in poor emotional wellbeing among people with profound and multiple learning disabilities (PMLD). However, little attention has been drawn to this group in the grief and disability literature. The purpose of this paper is to make sense of bereavement and loss in people with PMLD, with reference to theoretical contributions to the field and studies of grief reactions. Caregivers and professionals were mixed on how long a grief reaction continues before it can be viewed as dysfunctional. Intense behaviors, such as self-injury, were noted by respondents in 10-15% of grief reactions. Ability to "feel" or display emotional behavior during grief is not contingent only on a conceptual level.
