Trust and risk in Internet commerce / L. Jean Camp. Cambridge, Mass. MIT Press, 2000. 005.8 CAMP

The E-Commerce Times spoke with several experts familiar with the ins and outs of the gig economy to find out what's evolving and changing in this burgeoning field. [More...] Microsoft Nabs Nuance for $19.7B to Bolster Cloud for Healthcare. E-commerce is the practice of buying and selling goods over the Internet. The e-commerce sector has been one of the most transformative industries on the planet because it offers qualities that traditional brick and mortar shopping methods usually fall flat on; namely, comfortability, convenience and personalization. What is E-commerce? E-commerce is the practice of buying and selling goods over the Internet. The e-commerce sector has been one of the most transformative industries E-commerce is the activity of buying or selling of products on online services or over the Internet. Electronic commerce draws on technologies such as mobile commerce, electronic funds transfer, supply chain management, Internet marketing, online transaction processing, electronic data interchange (EDI), inventory management systems, and automated data collection systems. What is Ecommerce? Ecommerce, also known as electronic commerce or internet commerce, refers to the buying and selling of goods or services using the internet, and the transfer of money and data to execute these transactions. Ecommerce is often used to refer to the sale of physical products online, but it can also describe any kind of commercial transaction that is facilitated through the internet.
