What a wonderful book, especially for a dog lover like me. Molly, the sheep-hating border Collie, is such a character and I think Stobie has done a fantastic job of bringing her to life. Miren, the heroine, is delightful, and Nathan, the hero, absolutely delicious. When I was in Scotland last year I had the fortune to attend sheep dog trials and this story brought back many wonderful memories. Stobie Piel has a great gift for connecting you fully with the emotions of Nathan, Miren and Molly so that you seem to actually feel all of what they are feeling. You will laugh and cry through this book, but mostly, I think you will come away feeling like it's high time for another in the series since I don't think there has been another one written since this No. 1 in the series back in 1997! The fact that Molly was there at all was an oddity. John had flatly refused to leave his bride a scant two days after the wedding in order to traipse after Sherlock to the States. Sherlock had agreed, declared that Molly was "New John" and dragged her along with him. He'd later commented that the trip was far more pleasant with her than with his blogger, as he'd taken much enjoyment out of taking her roughly inside of the tiny airplane bathroom.
