How to Improve Your School. How to Improve Your School. Published by: Kahena (Karma: 11520.95) on 12 April 2011 | Views: 1602. Taking a practical look at how standards in education can be raised, this book cuts through jargon to show how ideas and intentions can be translated into effective action that will help schools.

A group of students in 2B suggested adding the discussion question ‘How can the school be improved?’: That is a broad topic that covers many areas. If you want to discuss changes to the school rules, however, we have a page for that already: engp.wordpress.com/2013/02/06/school-rules/ For this page, you can talk about things like: the physical... I would argue that in most schools, there needs to be a greater desire to improve things by doing them BETTER or MORE EFFICIENTLY or MORE EFFECTIVELY rather than by just doing more and more of them. What about you? Why would you like to see improved? Same things as someone who copy fast. We can download book in the phone, so we don’t need to bring heavy book to the school! Reply. However, you can improve high school education for yourself. Here are a few ways: PURPOSE Know and be able to articulate your purpose for being in high school. What are you trying to accomplish? Be specific. Need an idea for how to teach the popular young adult novel The Book Thief? Curious about how Second Life can enhance classroom learning? The answers to all these questions can be found online.
