
Number Theory. Numerical Methods. Optimization. Description. Since 1980, New Directions for Teaching and Learning (NDTL) has brought a unique blend of theory, research, and practice to leaders in postsecondary education. NDTL sourcebooks strive not only for solid substance but also for timeliness, compactness, and accessibility. The series has four goals: to inform readers about current and future directions in teaching and learning in postsecondary education, to illuminate the context that shapes these new directions, to illustrate these new directions through examples from real settings, and to propose ways in which these new directions c Start by marking “Interdisciplinary Studies Today: New Directions for Teaching and Learning, Number 58” as Want to Read: Want to Read saving… Want to Read. This volume of New Directions for Teaching and Learning is a practical compendium of advice and information on the development, administration, and assessment of interdisciplinary studies programs and schools.
