The second edition of The Nonprofit Sector provides a novel, comprehensive, cross-disciplinary perspective on nonprofit organizations and their role and function in society. This new, updated edition keeps pace with industry trends and advances as well as with the changing interests and needs of students, practitioners, and researchers. As before, every chapter has been written to stand on its own, providing sufficient background for the reader to follow the argument without referring to other chapters—allowing readers to selectively choose those chapters that are most relevant to a particular co. This is a touching nonprofit book for all of you out there seeking some inspiration. “Most of all, I’ll remind them each morning that we make a choice to bring positivity or negativity into the world, and that within every single person lies an extraordinary story waiting to unfold.”
