— Polytheism and the Sibylline Oracles’, in James J. Clauss, Martine Cuypers, and Alurvia Kahane (edd.), The Gods of Greek Hexameter Poetry: From the Archaic Age to Late Antiquity and Beyond (Stuttgart: Franz Steiner Verlag, 2016), 315–41.
And, first, to demonstrate the utility of some acquaintance with the laws of the land, let us only reflect a moment on the singular frame and polity of that land, which is governed by this system of laws. A land, perhaps the only one in the universe, in which political or civil liberty is the very end and scope of the constitution [b]. This liberty, rightly understood, consists in the power of doing whatever the laws permit [c]; which is only to be effected by a general conformity of all orders and degrees to those equitable rules of action texts.

Providing an introduction to translation studies, this book places a wide range of readings within their thematic, cultural and historical contexts. The selections included are from the twentieth century, with a particular focus on the last thirty years of the century. Features include: an organization into five chronological sections, divided by decade; an introductory essay prefacing each section; a detailed bibliography and suggestions for further reading.

This book offers a challenging and stimulating perspective on translation theory in the twentieth century. Many of the essays included in the collection are seminal ones, others are exciting, innovative pieces that invite us to reflect again on our understanding and knowledge of the translation process. Susan Bassnett, The University of Warwick, UK. I. Introduction: The Relationship of Theory to Practice A. Three Approaches to Method 1. Theory of second language acquisition 2. Applied linguistics research 3. Ideas and intuitions from experience B. Interactions Among Approaches to Practice C. What the Three Approaches Have to Say About Method D. Goals of This Book: to reintroduce teachers to theory and hopefully to gain their confidence again Notes. There is also far too little interaction between theoretical and applied research; those who search for the best method are often too little concerned with the underlying theory. What is perhaps most evident is that teachers and materials developers pay little attention to research and theorizing of any sort.
