ArchDaily has gathered a broad list of architectural books from different backgrounds with the aim of revealing divergent cultural contexts. For practitioners, citizens interested, and students alike, books on architecture offer invaluable context to the profession, be it practical, inspirational, academic, or otherwise. So, for those of you looking to expand your bookshelf (or confirm your own tastes), ArchDaily has gathered a broad list of architectural books that we consider of interest to those in the field. In compiling this list, we sought out titles from different backgrounds with the aim of revealing divergent cultural contexts.
