Chapters break the overall book topic into sections. Each chapter in a book is related to the overall book theme, and chapters are found in many book variations and genres, such as nonfiction, fiction, academia, law, and more. The concept of a book chapter is to allow the author to break up the work, and for the reader to digest the material in increments, or chunks that are both understandable and memorable. After all, most readers aren’t going to go through 30,000 or more words in one sitting. They need mental breaks. The templates for chapters in edited books are shown below, for print books, electronic books, and books with DOIs (either print or electronic), respectively:
