Countering New(est) Terrorism. By Bruce Oliver Newsome, W. James Stewart, and Aarefah Mosavi. CRC Press; crcpress.com; 381 pages; $82.95. Many books cover the topic of
terrorists and terrorism from basic awareness to specific counterterrorism best practices and techniques. Countering New(est) Terrorism: Hostage-Taking, Kidnapping, and Active
Violence&Assessing, Negotiating, and Assaulting offers a medley of information for the reader while delving into three important variables of terrorism: comparing the methodologies
of â€œoldâ€ and â€œnewâ€ terrorism; kidnapping/barricading situations; and the au This innovative book investigates how and why terrorismâ€™s organizational structures, modus
operandi, political agendas and types of warfare have changed over the years as a result of certain dynamics, such as the information revolution created by modernity and
textbook, they outline their critique of â€œconventionalâ€ terrorism studies by providing a counter-explanation of terrorism over issues such as defining terrorism, the nature of the
terrorist threat and what they consider to be effective and ineffectual counter-terrorism strategies. This book analyzes the "newest terrorism" that has emerged in recent
years&characterized by increased hostage-taking, kidnapping, and active violence&and develops best practices for countering these emerging threats. Along the way, it
challenges fashionable wishful thinking that all terrorists are open to rational negotiation or de-radicalization, that military responses always reflect badly on the official side, and that
terrorists are not constrained by their own doctrines. This bibliography contains bibliographies, books, including edited volumes, book chapters, articles theses, and grey literature on
civilian casualties of terrorism and counter-terrorism. It presents quantitative, qualitative as well as mixed-method approaches to provide a wide range of perspectives. This
bibliography should not be regarded as exhaustive, considering the multidisciplinary nature of the field.
