I start with a simple assumption: 100% of your decisions are going to be made under time constraints or uncertainty, leading to pressure of some sorts. This will lead to a clouded judgment on your part. In my book I provide precisely this: a list of methods that you can apply on the spot depending on what stage of your decision making process you find yourself in. Disclaimer: my writing style is a lot more practical than formally correct and academic. I quote all my sources, of course, but I don't use a language whose aim is to sound academic. My goal is to be understood and to empower you to make a tough decision the right way on the spot. “Your Decision” is a song by Alice in Chains, featured on their fourth studio album, Black Gives Way to Blue (2009).
